Readiness Factors

Anything having the potential to interfere with the client preparing for, getting, or maintaining a job.

VR staff needs to begin identifying the Employment Planning Readiness (EPR) factors during the Employment Discussion:

- **Discuss Factors:** When a client alludes to or identifies an EPR factor discuss it during the Employment Discussion.
- **Assess Impact:** VR staff needs to assess the degree to which the factor(s) will interfere with the client becoming successfully employed.
- **Determine Application Appropriateness:** VR staff will need to determine the appropriateness of the client applying for services given the nature and scope of the EPRs.
- **Discuss Your Concern:** If an EPR factor will interfere with the client participating in VR services, VR staff should discuss their concerns with the client and identify steps to be taken prior to application. Provide the client with community resources to address the client's needs.
- **Identify Resources:** When the client applies for VR services the appropriate services and resources need to be identified that will correct, compensate, or circumvent the impact EPRs have on the client being successful.

The following outline helps explore potential EPRs. This outline is for VR staff use. It should not be given to the client to complete nor should VR staff read each of the items and ask the client to self disclose.
